

Features

- Approx. 0.7% stray inductance
- Suitable for reflow soldering
- Design complies with EN 60938-2

General Specifications

- Rated Voltage: 250VAC
- Hi-pot: 1500VAC/1mA/2S
- Operating temp range: -40°C to +85°C
- Package: 250PCS/Reel

Applications

- Suppression of common-mode interferences
- Compact electronic ballasts in lamps
- Compact switch-mode power supplies

Dimensions & Configurations (Unit:mm)
